#### **Rating Action:**

# Creditreform Rating affirms Crédit Agricole S.A. (Group) long-term issuer rating at 'A' (Outlook: stable)

Creditreform Rating (CRA) affirms Crédit Agricole S.A. long-term issuer rating at 'A' and the short-term rating at 'L2'. The rating outlook is set from positive to stable.

At the same time, we affirms Credit Agricole's preferred senior unsecured debt instruments at 'A', the non-preferred senior unsecured debt at 'A-', the Tier 2 capital at 'BBB-' and AT1 capital at 'BB+'.

Please find a complete list of rating actions regarding the bank and its affected subsidiaries at the end of this rating update.

#### **Key Rating Driver**

CRA has revised the rating of Crédit Agricole S.A. and its bank capital and debt instruments as a result of its periodic monitoring process for the following reasons:

- Significant net profit increase in 2021, but still below average
- Large G-SIB and largest financer of the European economy
- The biggest private employer in France and the number one insurer in France based on revenue
- Notable enhancement of asset write-down ratios and overall superior asset quality
- Significant declines in all capital ratios and below average
- Substantial refinancing by the ECB's TLTRO III program
- High dependence on economic development in France

#### **Company Overview**

The Crédit Agricole Mutuel was founded as a mutual bank on 5 November 1894. The listed Crédit Agricole S.A. (hereinafter "CASA") acts as a central institution and, together with 2,406 local banks and 39 regional banks, forms the cooperative banking Group of Crédit Agricole S.A. (hereinafter "CA", "bank" or "Group"). The Group has over 11.2 million mutual shareholders and employs about 147,000 employees worldwide. The bank is active in 47 countries and operates 9,500 retail banking branches and serves around 53 million retail customers worldwide. The Group is a leading actor in many industries in its home market of France, for example as the biggest provider of Credit to the French economy (€746bn loans outstanding). It is also the biggest European asset manager (€2.05tn AUM) and is the number one insurer in France.

Chart 1: Group Structure and Shareholders of Crédit Agricole S.A.| Source: Annual Report 2021, own Illustration

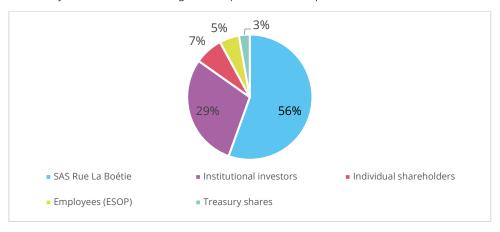

In June 2019, Crédit Agricole presented the Medium-Term Plan 2022 together with the "Purpose of Crédit Agricole", "to act every day in the interest of our customers and society". The objectives of the previous Medium-Term Plan "Strategic Ambition 2020" were fulfilled early on. The objectives of the Group project are excellence in customer relations, empowered teams for customers and commitment to society. Financial targets were set as follows: €5bn net income (Group share) at CASA (2020: €2.69bn), a return on equity of 11% (2020: 9.30%), a CET1 ratio of 11% at CASA (2020: 12.9%) and a cost income ratio of below 60% at CASA (2020: 59.6% excl. SRF). In addition, Crédit Agricole seeks to increase synergies between the different entities that make up CA Group by €1.3bn to €10bn in 2022, especially in insurance. To aid the technological transformation, Crédit Agricole is allocating €15bn to IT over the course of the next 4 years. Part of MTP is also a simplification of the capital structure with the partial unwinding of the so-called Switch Guarantee. In this unwinding, in which CASA transferred regulatory requirements for insurance activities to regional banks in return for a fee, the net income of the CASA will be positively impacted by €70m per year, at the cost of 40 basis points (bp) of CET1 ratio. Of course, the ambitious goals could not be pursued consistently due to the Corona pandemic. However, within 2021 almost all financial targets achieved.

In light of the COVID-19 crisis, Crédit Agricole granted a multitude of support measures to help their customers. Crédit Agricole granted a moratorium on loan repayments to corporate and SME business customers impacted by the crisis. In addition, the French State introduced state guaranteed loans (Prêts Garantis par l'Etat) to meet cash flow requirements of affected businesses. Due to the size of Crédit Agricole and its servicing of customers from very small to very large, the Group has received a significant share of all state guaranteed loan requests.

#### **Rating Considerations and Rationale**

Creditreform Rating affirms the unsolicited long-term issuer rating of Crédit Agricole S.A. at A. However, we reduce the outlook from positive to stable. The downgrade of the outlook and the affirmation of the Credit rating are a result of the higher risk provisioning due to the Ukraine war and the negative impact on the French economy due to rising inflation. In addition, we expect a higher credit volume in the next years with a growth in the NPL ratios. Moreover, Crédit Agricole benefits from its cooperative structure and the solidarity mechanisms with the 39 regional banks in France.

#### **Profitability**

Crédit Agricole was able to increase its profitability significantly towards 2020, recovering from the Corona crisis, as well as increasing its profitability to the ordinary fiscal year 2019. Meanwhile, operating income increased substantially to 2020. A strong increase in fee & commission and net trading income (in combination with the insurance income) was associated with an increase in personnel expense. The bank enhanced his Net Profit from €3.2bn in 2020 to €6.8bn in 2021, which was mainly due to the decrease in impairment/ cost of risk and the overall improvement of all business lines with respect to net profit. Furthermore, the bank considerably improved its earnings ratios such as ROE (2020 4.41%, 2021 8.90%), RORWA (2020 0.97%, 2021 1.82%) and ROA (2020 0.17%, 2021 0.33%). The first two are primarily due to a higher profit increase in relation to the increase in equity and in relation to the increase in risky weighted assets. The rise in RWA caused mainly by the increase in dismantling Switch guarantee between CASA and the regional banks. Overall, it remains to be stated that the earnings figures, despite improvement, still have potential. Due to the impairments/costs caused by the war in Ukraine, improved profitability is not expected for the time being.

#### **Asset Situation and Asset Quality**

In a risk environment that is recovering slightly from the covid crisis on Crédit Agricole's markets, asset quality has generally improved. The bank's NPL ratio (stage 3 loans over net loans to cus-

Crédit Agricole S.A.

# Creditreform C Rating

tomer) dropped from 3.3% to 2.6%, which displays an above average ratio. However, the potential problem loan ratio (stage 2 loans over net loans to customers) deteriorated moderately from 9.7% to 11.3% due to changes in the risk methodology and downgrades of State - guaranteed loans while the ratio of Reserves over NPL increased stable at 74.7%. The latter is attributable to the stronger reduction of NPL than the reduction of Reserves and is even higher than in the pre covid year 2019 with 70.1%. Moreover, with the onset of the economic recovery in France, which accounts for almost 70 percent of CASA exposures, the bank was able to reduce its asset write-downs significantly, achieving an above average ratio. With the exception of the increased Stage 2 ratio, all asset ratios have improved considerably and illustrate the low risks and high diversification of the asset side of the balance sheet.

#### **Refinancing, Capital Quality and Liquidity**

As total equity of Crédit Agricole increased less than the assets as a whole, the total equity ratio decreased marginally to 3.7%. With respect to its capital ratios, the bank's CET1 ratio decreased moderately from 12.9% to 11.6% due to the higher enhancement of its total RWA, mainly determined by the rise in the dismantling of the switch guarantees between CASA and the regional banks, compared to the marginal increase of its CET1 capital. Furthermore, the bank exhibits a significant reduction of its T1 ratio from 14.7% to 12.9% and its Total Capital ratio from 19% to 17.5%. The former is the result of a redemption of a deeply subordinated note in June 2021 with a nominal amount of €1bn. The total equity ratio remains below average. The regulatory ratios are also down compared to last year. Based on the first Q1/2022 figures, no significant improvement in the capital ratios can be assumed. However, the buffer of the capital ratios to the SREP minimum requirements, which continues to be very comfortable, should be positively emphasised. With regard to the liquidity situation, it remains remarkable with a liquidity coverage ratio moderately above the previous year's level with 183% and an average NSFR of 125%.

# Creditreform ⊆ Rating

#### **Environmental, Social and Governance (ESG) Score Card**

Credit Agricole has one significant and two moderate ESG rating drivers

• Corporate Governance is identified as a highly significant rating driver. The relevance for the credit rating results from the impact of the Corporate Governance factor on all other ESG factors and the overall well-being of the bank. This sub-factor is rated positive due to CA's solid and sustainable earning figures, good asset quality and capitalization, convincing MTP 2022

3,9 / 5

• Corporate Behaviour and Green Financing / Promoting are identified as moderate rating driver. While Green Financing / Promoting is rated positive due to a convincing portfolio of green bonds, Coporate Behaviour is rated neutral due the misconduct in recent years in relation with money laundering allegations or previous misdemeanors for example in the rigging of the LIBOR. Alleviating circumstance is the lack of current material legal proceedings against CA.

| ESG Score Guidance |               |  |  |  |  |  |  |

The ESG Score is based on the Methodology "Environmental, Social and Governance Score of Banken (Version 1.0)" of Creditreform Rating AG, which is available on our homepage https://creditreform-rating.de/en/about-us/regulatory-requirements.html. In addition, we refer to CRA's position paper "Consodering the Impact of ESG Factors".

Crédit Agricole S.A.

# Creditreform C Rating

#### **Outlook**

The outlook of the Long-Term Issuer Rating of Credit Agricole is 'stable'. In the medium term, CRA expects no significant deterioration in profitability and asset quality, due to the war in Ukraine and rising consumer prices. In the short term, these two events may have an impact on Credit Agricole's profitability. In the medium to long term, rising interest rates will lead to increasing profitability for CA's substantial lending business. Asset quality and capital ratios (due to RWAs) will strongly depend on the economic development in France. The interaction of Casa with the regional banks will enable the Credit Agricole Group to grow further in the coming years.

#### **Scenario Analysis**

In a scenario analysis, the bank is able to reach an "A+" rating in the "best case" scenario and an "BBB+" rating in the "worst case" scenario. The ratings of bank capital and senior unsecured debt would behave similarly based on our rating mechanism. These ratings are especially sensitive to changes in total equity and to the bank capital and debt structure in general.

We might upgrade Credit Agricole's long-term issuer credit rating and its bank capital and debt instruments if we see that Credit Agricole is able to continue to grow in the lending business while maintaining the same NPLs and write-off ratios. The growth in customer business should also lead to higher earnings. In addition, a significant improvement of Credit Agricole capital ratios might lead to an upgrade as well.

By contrast, a downgrade of the Credit Agricole's long-term issuer credit rating and its bank capital and debt instruments is likely if we see a lasting decline of Credit Agricole's profitability and a reduction of the banks' capital ratios. In particular, we will observe the ongoing Economic development in France and the impact on Credit Agricole's asset quality and its business activities in general.

Best-case scenario: A+

Worst-case scenario: BBB+

Please note:

The scenarios are based on information available at the time of the rating. Within the forecast horizon, circumstances may occur that could lead to a change of the rating out of the indicated range.

# Creditreform C Rating

#### Regulatory

Creditreform Rating AG was neither commissioned by the rating object nor by any other third party for the rating. The analysis took place on a voluntary basis by Creditreform Rating AG and is to be described

The rating is based on publicly available information and internal in the regulatory sense as an unsolicited rating. The following scheme clarifies the level of participation of the rated entity (rating object):

| Unsolicited Credit Rating                              |    |  |  |  |  |
|--|----|--|--|--|--|
| With Rated Entity or Related Third Party Participation | No |  |  |  |  |
| With Access to Internal Documents                      | No |  |  |  |  |
| With Access to Management                              | No |  |  |  |  |

evaluation methods for the rated bank. The quantitative analysis is based mainly on the latest annual accounts, interim reports, other investor relations information of the bank, and calculated key figures by eValueRate / CRA.

The information and documents processed met the requirements of the rating system of Creditreform Rating AG as published on the website www.creditreform-rating.de. The rating was carried out on the basis of the rating methodology for bank ratings (v3.1), the methodology for the rating of bank capital and unsecured debt instruments (v2.1), the methodology for the rating of Government-Related Banks (v2.0) the methodology for the rating of Institutional Protection Scheme Banks (v1.0) as well as the rating methodology for Environmental, Social and Governance Score for Banks (v1.0) in conjunction with Creditreform's basic document Rating Criteria and Definitions (v1.3).

The complete presentation of the rating methodologies used by Creditreform Rating AG and the basic document Rating Criteria and Definitions (v1.3) are published on our homepage:

#### https://www.creditreform-rating.de/en/about-us/regulatory-requirements.html

On 20 May 2022, the rating was presented by the analysts to the rating committee and adopted in a resolution.

The rating result was communicated to Credit Agricole S.A., and the preliminary rating report was made available to the bank. There was no change in the rating score.

The rating is valid until withdrawal and is subject to monitoring from the rating date (see cover page). The rating will be comprehensively reviewed at least once every year. Within this period, the rating can be updated.

In 2011 Creditreform Rating AG was registered within the European Union according to EU Regulation 1060/2009 (CRA-Regulation). Based on the registration Creditreform Rating AG (CRA) is allowed to issue credit ratings within the EU and is bound to comply with the provisions of the CRA-Regulation. Rating Endorsement Status:

The rating of Credit Agricole S.A. was not endorsed by Creditreform Rating AG from a third country as defined in Article 4 (3) of the CRA-Regulation.

Crédit Agricole S.A.

# Creditreform C Rating

#### **Conflict of Interests**

No conflicts of interest were identified during the rating process that might influence the analyses and judgements of the rating analysts involved or any other natural person whose services are placed at the disposal or under the control of Creditreform Rating AG and who are directly involved in credit rating activities or approving credit ratings and rating outlooks.

In case of providing ancillary services to the rated entity, CRA will disclose all ancillary services in the credit rating report.

Annual report data entry and the provision of financial structure data as well as mapping of data structures were conducted as ancillary services for an affiliated third party.

**Rules on the Presentation of Credit Ratings and Rating Outlooks** 

The approval of credit ratings and rating outlooks follows our internal policies and procedures. In line with our policy "Rating Committee," all credit ratings and rating outlooks are approved by a rating committee based on the principle of unanimity.

To prepare this credit rating, CRA has used following substantially material sources:

- 1. Aggregated data base by eValueRate
- 2. Annual Report and interim reports
- 3. Investors relations information and other publications
- 4. Website of the rated bank
- 5. Public and internal market analyses
- 6. Internet research

There are no other attributes and limitations of the credit rating or rating outlook other than displayed on the CRA website. Furthermore CRA considers satisfactory the quality and extent of information available on the rated entity. In regard to the rated entity Creditreform Rating AG regarded available historical data as sufficient.

Between the disclosure of the credit rating to the rated entity and the public disclosure no amendments were made to the credit rating.

The "Basic data" information card indicates the principal methodology or version of methodology that was used in determining the rating, with a reference to its comprehensive description.

In case where the credit rating is based on more than one methodology or where reference only to the principal methodology might cause investors to overlook other important aspects of the credit rating, including any significant adjustments and deviations, Creditreform Rating AG explains this fact in the credit rating and indicates how the different methodologies or these other aspects are taken into account in the credit rating. This information is integrated in the credit rating report.

The meaning of each rating category, the definition of default or recovery and any appropriate risk warning, including a sensitivity analysis of the relevant key rating assumptions, such as mathematical or correlation assumptions, accompanied by worst-case scenario credit ratings as well as best-case scenario credit ratings are explained in mentioned methodologies and / or in the credit rating report.

Crédit Agricole S.A.

## Creditreform C Rating

The date at which the credit rating was released for distribution for the first time and when it was last updated including any rating outlooks is indicated clearly and prominently in the rating report or in the "Basic data" card as a "Rating action"; first release is indicated as "initial rating", other updates are indicated as an "update", "upgrade or downgrade", "not rated", "confirmed", "selective default" or "default".

In the case of a rating outlook, the time horizon is provided during which a change in the credit rating is expected. This information is available in the rating report or the "Basic data" information card.

In accordance to Article 11 (2) EU-Regulation (EC) No 1060/2009 registered or certified credit rating agency shall make available in a central repository established by ESMA information on its historical performance data, including the ratings transition frequency, and information about credit ratings issued in the past and on their changes. Requested data are available at the ESMA website: https://cerep.esma.europa.eu/cerep-web/statistics/defaults.xhtml.

An explanatory statement of the meaning of Creditreform's default rates are available in the credit rating methodologies disclosed on the website.

#### Disclaimer

Any rating performed by Creditreform Rating AG is subject to the Creditreform Rating AG Code of Conduct which has been published on the web pages of Creditreform Rating AG. In this Code of Conduct, Creditreform Rating AG commits itself – systematically and with due diligence – to establish its independent and objective opinion as to the sustainability, risks and opportunities concerning the enterprise or the issue under review.

Future events are uncertain, and forecasts are necessarily based on assessments and assumptions. This rating is therefore no statement of fact, but an opinion. For this reason, Creditreform Rating AG cannot be held liable for the consequences of decisions made on the basis of any of their ratings. Neither should these ratings be construed as recommendations for investors, buyers or sellers. They should only be used by market participants (entrepreneurs, bankers, investors etc.) as one factor among others when arriving at corporate or investment decisions. Ratings are not meant to be used as substitutes for one's own research, inquiries and assessments.

We have assumed that the documents and information made available to us by the client are complete and accurate and that the copies provided to us represent the full and unchanged contents of the original documents. Creditreform Rating AG assumes no responsibility for the true and fair representation of the original information.

This report is protected by copyright. Any commercial use is prohibited without prior written permission from Creditreform Rating AG. Only the full report may be published in order to prevent distortion of the report's overall assessment. Excerpts may only be used with the express consent of Creditreform Rating AG. Publication of the report without the consent of Creditreform Rating AG is prohibited. Only ratings published on the Creditreform Rating AG web pages remain valid.
