Rating rationale:

The object of this rating are the Round Hill Notes (rating object) issued by Round Hill Real Estate Partners Securitization S.à r.l., Compartment 1 (borrower).

The transaction's structural risk remains unchanged compared to last year. The development of the credit enhancement was positive and in line with our expectations, as the borrower has applied all available cash flows for early amortizations of the rating object. We assume that this early amortization mechanism will be applied for the remaining term of the transaction, as this stabilizes our rating assessment. Should the borrower deviate from this assumption, CRA will reserve the right to review the rating. According to our opinion, operational risk increased as CRA sees high uncertainties regarding the economic development in the target market. Market interest rates are rising at the moment, which may put pressure on investments' valuations and their operating results. From a quantitative perspective, the transaction confirmed our BBB result from last year. In addition, scenario and sensitivity analyses revealed a high resilience of the base case result against applied stress factors. Combining quantitative and qualitative findings for the transaction, CRA confirms the current rating for the rating object with BBB-. Due to the current valuation of the portfolio assets, which are supportive for our BBB rating, CRA removes the qualifier "watch" and sets the outlook to "stable".

Primary key rating driver:

- (+) High equity ratio on property level
- (+) Variable coupon reduces default risk during note term
- (+) Variable enhancement ("Increased Rate of Amortization"): amortization rate has been raised to the maximum quarterly amount
- (+) Property investments are stabilized and performing
- (-) Lower than expected number of investments increases transaction's susceptibility to idiosyncratic risk
- (-) Low diversification on property level due to sector focus on southern US Multifamily, Garden Style Apartments
- (-) Investments exhibit a high degree of risk

Ratings sensitivities:

Best-case scenario: In this scenario, we stressed (ceteris paribus) the current income and the expected annual capital appreciation of the portfolio assets by +15% and 32% respectively, resulting in a rating of BBB.

Worst-case scenario: In this scenario, we stressed (ceteris paribus) the current income and the expected annual capital appreciation of the portfolio assets by -15% and -21% respectively, resulting in a rating of BBB-.

ESG-Criteria:

CRA generally considers ESG factors (environment, social and governance) within its rating decisions. In the present case, ESG criteria had no comprehensive impact to the rating.

ESG factors with material impact were not identified.

It immediately follows that the assigned rating must not be limited to the motivators mentioned in the CRA Press Release. Instead, a comprehensive acknowledgement of all explanations provided in previous reports, other forms of documentation, rating updates and, in particular, the CRA initial rating report is indispensable. At this point, CRA refers the reader to these forms of documentation, rating updates and reports.

Regulatory Requirements and Legal Disclosures :

Creditreform Rating AG was mandated on 24/04/2018 by Round Hill to conduct a rating for the bearer notes under German law, issued by Round Hill Real Estate Partners Securitization S.à r.l., Compartment 1. This is a public rating which is regulatory applicable according to EU Regulation 1060/2009 (CRA-Regulation).

The rating was conducted on the basis of Creditreform Rating's "Issue Ratings" and "Technical Documentation - Portfolio Loss Distribution" in conjunction with Creditreform's basic document "Rating Criteria and Definitions".

Important sources of information in the context of the rating were, in addition to the submitted documents, a due diligence meeting on 08/07/2022. The submitted documents and information provided by Round Hill or rather the Issuer were sufficient to meet the requirements of Creditreform Rating AG's rating methodology.

A complete description of Creditreform Rating's rating methodologies and Creditreform's basic document "Rating Criteria and Definitions" is published on the following internet page:

<https://creditreform-rating.de/en/about-us/regulatory-requirements.html>

On the subject of ESG (environment, social and governance), Creditreform Rating AG has published the basic document "The Impact of ESG Factors on Credit Ratings", which is available on the homepage under the following link:

<https://creditreform-rating.de/en/about-us/regulatory-requirements.html>

This rating was carried out by analysts Christian Schönherr (Lead) and Dr. Matthias Peiß, all located in Neuss/Germany. The function of Person Approving Credit Ratings (PAC) was performed by Jan Löckenhoff.

Closing of the transaction occurred on 04/10/2018. The rating is based on the portfolio information and transaction documentation as of 31/03/2022, as provided by Round Hill or the Issuer.

The issuer or all relevant parties have examined the rating report prior to publication and were provided with at least one full working day to appeal the rating committee decision and provide additional information. The rating decision was not amended following this examination.

In addition to the provision of rating activity, further ancillary services were provided. A pre-rating was conducted.

In 2011 Creditreform Rating AG was registered within the European Union according to EU Regulation 1060/2009 (CRA-Regulation). Based on the registration Creditreform Rating AG (CRA) is allowed to issue credit ratings within the EU and is bound to comply with the provisions of the CRA-Regulation.

Conflicts of Interest

No conflicts of interest were identified during the rating process that might influence the analyses and judgements of the rating analysts involved or any other natural person whose services are placed at the disposal or under the control of Creditreform Rating AG and who are directly involved in credit rating activities or approving credit ratings and rating outlooks.

In case of providing ancillary services to the rated entity, CRA will disclose all ancillary services in the credit rating report.

Rules on the Presentation of Credit Ratings and Rating Outlooks

The approval of credit ratings and rating outlooks follows our internal policies and procedures. In line with our "Rating Committee" policy, all credit ratings and rating outlooks are approved by a rating committee based on the principle of unanimity.

To prepare this credit rating, CRA has used following substantially material sources:

1. Transaction structure and participants
2. Transaction documents
3. Issuance documents

There are no other attributes and limitations of the credit rating or rating outlook other than those displayed on the CRA website. Furthermore CRA considers satisfactory the quality and extent of information available on the rated entity. In regard to the rated entity Creditreform Rating AG regarded available historical data as sufficient.

Between the time of disclosure of the credit rating to the rated entity and the public disclosure, no amendments were made to the credit rating.

This rating was not endorsed by Creditreform Rating AG from a third country as defined in Article 4 (3) of the CRA-Regulation.

The "Basic Data" information card or the press release published on Creditreform Rating's website indicates the principal methodology or version of methodology that was used in determining the rating, with a reference to its comprehensive description.

In cases where the credit rating is based on more than one methodology or where reference only to the principal methodology might cause investors to overlook other important aspects of the credit rating, including any significant adjustments and deviations, Creditreform Rating AG explains this fact in the credit rating report and indicates how the different methodologies or other aspects are taken into account in the credit rating. This information is integrated in the credit rating report.

The meaning of each rating category, the definition of default or recovery and any appropriate risk warning, including a sensitivity analysis of the relevant key rating assumptions, such as mathematical or correlation assumptions, accompanied by worst-case scenario credit ratings and best-case scenario credit ratings are explained.

The date at which the credit rating was initially released for distribution and the date when it was last updated including any rating outlooks is indicated clearly and prominently in the "Basic Data" card or in the press release published on Creditreform Rating's website as a "rating action"; first release is indicated as "initial rating", other updates are indicated as an "update", "upgrade or downgrade", "not rated", "confirmed", "selective default" or "default".

In the case of a rating outlook, the time horizon is provided during which a change in the credit rating is expected. This information is available within „Basic data“ information card Creditreform`s basic document "Rating Criteria and Definitions".

In accordance to Article 11 (2) EU-Regulation (EC) No 1060/2009 registered or certified credit rating agency shall make available in a central repository established by ESMA information on its historical performance data, including the ratings transition frequency, and information about credit ratings issued in the past and on their changes. Requested data are available at the ESMA website:

<https://cerep.esma.europa.eu/cerep-web/statistics/defaults.xhtml>.

An explanatory statement of the meaning of Creditreform`s default rates are available in the credit rating methodologies disclosed on the website. Further information can also be found on the CRA website in the document "Rating Criteria and Definitions".
