

Rated entity:

Mortgage Covered Bond Program (FBSchVG) issued by Raiffeisen-Landesbank Steiermark AG

Rating:

AAA

Rating outlook / watch:

Outlook stable

Rating summary:

This monitoring report covers our analysis of the mortgage covered bond program (“Fundierte Bankschuldverschreibungen”) issued under Austrian law by Raiffeisen-Landesbank Steiermark AG („RLB Steiermark“). As of 31 March 2022, the total covered bond issuance had an outstanding value of EUR 4,613.00 m, backed by a cover pool with a nominal value of EUR 5,867.00 m. This corresponds to a nominal overcollateralization of 27.18%. The cover assets mainly include Austrian mortgages obligations in Austria.

Based on the cover pool as of 31 March 2022, CRA determined a default rate of 39.20%, a recovery rate of 70.78%, and therefore an expected loss of 11.46% for the AAA base-case scenario. At the same time, CRA assumed an asset-sale discount of 71.71% and a stressed yield spread of 0.00%. While performing the break-even OC analysis, we took rating-level specific stressed outcomes into account. Based on these analyses, the maximum OC required for the relevant AAA rating level during the whole period is 24.45%.

Taking into consideration the issuer rating, our analysis of the currently valid regulatory framework, liquidity and refinancing risks, as well as our cover pool assessment and results of the cash flow analysis with credit metrics as of 23 May 2022 and overall monitoring results, Creditreform Rating AG (“Creditreform Rating” or “CRA”) confirms the covered bond program rating at AAA. The AAA rating represents the highest level of credit quality and the lowest investment risk.

Please note that the new Pfandbrief Act will enter into force as of 08 July 2022; at the same time the currently existing three legal bases (Pfandbrief Law (Pfandbriefgesetz), the Mortgage Banking Act (Hypothekbankgesetz) and the Covered Bond Act (Gesetz über Fundierte Bankschuldverschreibungen) will expire as of 07 July 2022. The rating is closely monitored. The new Pfandbrief Act and the associated effects on the assessment of the legal and regulatory framework as well as the liquidity and refinancing risk will be included in this rating when it comes into force.

Risk Factor	Result
Issuer rating	A- (rating as of 24 November 2021)
+ Legal and regulatory framework	+3 Notches
+ Liquidity and refinancing risk	+0 Notch
= Rating after 1 st uplift	AA-
Cover pool & cash flow analysis	AAA (credit metrics as of 23 May 2022)
+ 2 nd rating uplift	+3 Notches
= Rating covered bond program	AAA

Primary key rating driver:

- + Covered bondholders have full recourse to the issuer
- + Current high overcollateralization (OC) over the minimum legal requirement
- +/- Ongoing Covid-19 can lead a sustained impact on the cover pool and issuer rating
- Due to the Corona pandemic, the high level of risk provisioning significantly burdened the issuer’s year-end result for 2020

Rating sensitivities:

Best-case scenario: In this scenario, the base case assumptions remained stable, resulting in a cover pool rating of AAA.

Worst-case scenario: In this scenario, we (ceteris paribus) reduced recoveries by 50% and increased credit risk by 50%, resulting in a cover pool rating of BB+. This would reduce the 2nd rating uplift by 3 Notches, resulting in a rating of AA- for the covered bond program.

ESG-criteria:

CRA generally takes ESG-relevant factors (environmental, social and governance) into account when assessing Covered Bond ratings. Overall, ESG factors have a significant impact on the current rating of this Covered Bond program. CRA identifies governance factors, in particular, to have a highly significant impact on Covered Bond ratings. Since Covered Bonds are subject to strict legal requirements, regulatory risk plays an important role in assessing the credit rating.

Overall, the Covered Bond Act provides clear rules and an adequate structural framework for covered bond holders, but covered bonds are subject to less stringent legal requirements compared to other covered bond laws. Additionally, risk management and internal controls as well as macroeconomic factors such as interest rates and yield curves are considered to have a significant impact on the assessment of creditworthiness. Other individual factors with a potential influence on the key rating were not identified and therefore had no influence on the final rating.

On the subject of ESG (environment, social and governance), Creditreform Rating AG has published the basic document ("The Impact of ESG Factors on Credit Ratings"), which is available on the homepage under the following link:

Endorsement:

Creditreform Rating did not endorse the rating according Article 4 (3), CRA-Regulation.

Regulatory requirements:

In 2011 Creditreform Rating AG was registered within the European Union according to EU Regulation 1060/2009 (CRA-Regulation). Based on the registration Creditreform Rating AG (CRA) is allowed to issue credit ratings within the EU and is bound to comply with the provisions of the CRA-Regulation.

Conflict of Interests

No conflicts of interest were identified during the rating process that might influence the analyses and judgements of the rating analysts involved or any other natural person whose services are placed at the disposal or under the control of Creditreform Rating AG and who are directly involved in credit rating activities or approving credit ratings and rating outlooks. In case of providing ancillary services to the rated entity, CRA will disclose all ancillary services in the credit rating report of the issuer.

Rules on the Presentation of Credit Ratings and Rating Outlooks

The approval of credit ratings and rating outlooks follows our internal policies and procedures. In line with our policy "Rating Committee," all credit ratings and rating outlooks are approved by a rating committee based on the principle of unanimity. To prepare this credit rating, CRA has used following substantially material sources:

1. Transaction structure and participants
2. Transaction documents
3. Issuing documents
4. Other rating relevant documentation

There are no other attributes and limitations of the credit rating or rating outlook other than displayed on the CRA website. Furthermore, CRA considers the quality and extent of information available on the rated entity as satisfactory. In regard to the rated entity Creditreform Rating AG regarded available historical data as sufficient.
