

CREDITREFORM ESG RATING

Detailed analysis of your sustainability development

Demonstrate the future readiness of your business model

The sustainability of companies is clearly in focus. An independent sustainability rating thus becomes a real differentiating factor for companies.

Creditreform's ESG rating builds upon our long-standing credit rating expertise. It provides a comprehensive and objective assessment of the sustainability efforts and action plans of companies, banks and financial service providers. The Creditreform ESG Rating can thus enable banks and investors to identify at a glance companies, which are actively implementing sustainability requirements.

The Creditreform ESG rating enables you to demonstrate your company's sustainability, goals, strategies and development in the ESG area to your business partners and capital providers. This promotes maximum transparency and strengthens trust in your company.
